

I Just Saw the Dragonball Trailer...Yipes.

Contributed by Matt

Okay, I'm not going to pretend to know anything about "Dragonball Z", because I don't. Really, I don't know much about Anime, except that it comes from Japan and usually each show comes with a ton of merchandise. But when I heard James Marsters was going to be in it, I had to at least take a look....

It would appear that Marsters is the only interesting thing to look at in the film, or at least that's what the trailer made me feel.

The rest of the trailer looks like if a dragonball costume party had sex with a Uwe Boll movie. If you don't know what that means, I'll make it simple....it looked bad.

There's really nothing special in the trailer. Every scene looks like something that's been done before, and done ad nauseum. And what happened to Chow Yun-Fat? Where'd his career go?

Don't take my word for it, check out the trailer below.
