

News: Andy Hallett Dies at 33

Contributed by Matt

It's sad that I come back with my first post in months and it's this...

As you probably already know, Andy Hallett passed away on March 29th at the age of 33. He was battling heart disease for the better part of 5 years and finally succumbed to it Sunday night.

By all accounts, Andy was a good man, always one of the most friendly actors towards the fans. He was big on the convention circuit, and everyone always loved to talk to him. He was down to earth, funny...just an incredibly entertaining guy. I think I speak for everyone at HMC when I say we will all miss him very, very much. Our condolences go out to his friends and family.
